AV Niche (Recording Systems) Limited supply a full range of “easy to use” audio video interview recorders which are available to produce single, dual, triple and quadruple copies of an interview in progress. Dual microphone inputs give left and right channel audio recording and dual camera inputs provide a close up image of the interviewee together with a wide angle image of the complete interview room. Each system is supplied as a standalone metal cased unit with lockable glass door for restrictive access and added security.

Single function controls are integrated within the system for “ease of use” operation. In built audible visual alarms are provided to ensure correct equipment operation together with dedicated audio and video outputs for the remote monitoring of an interview.
