AV Niche (Recording Systems) Limited supply a full range of “easy to use” DVD interview recorders which are available to produce single, dual, triple and quadruple copies of an interview in progress. Left and right audio channel dedicated inputs are provided as standard. Each system is supplied as a standalone cased unit with lockable panels for restrictive access and added security. Recording units available for static and portable use.

Single function controls are integrated within each recording system for “ease of use” operation. In built audible visual alarms together with alpha-numeric display are provided to ensure correct equipment operation. An integral 4” colour LCD display monitor is provided as standard within each recording unit. GPS video stamped time and date with full picture-in-picture facilities are also provided as standard. Dedicated video and audio outputs are available for a full range of colour TV monitors 14”,17”,21”,25” to be integrated to a system. Inductive loop “talkback” facilities are available for integration within a dedicated interview suite.
